**Version 1— Girly Pastel Theme**

This version embraces a soft, feminine aesthetic with light pinks, purples, and baby blues. Inspired by cute, dreamy stationery and online fashion blogs, it gives off a playful yet polished vibe. The bright color palette and heart-icon enhance its friendly and inviting personality. This concept focuses on making the styling process feel fun and personal — perfect for a user who enjoys creativity and charm in a digital space.

**Version 2— Minimalist Monochrome Theme**

The black, white, and gray design showcases a sleek, modern approach. Inspired by fashion editorials and luxury brand websites, this layout focuses on clean typography and strong contrast. The minimalist color scheme highlights the elegance and clarity of the interface, allowing the content and visuals to stand out. It communicates professionalism and sophistication while maintaining ease of use and visual balance.

**Version 3— Monochromatic Orange Theme**

This version uses a warm, monochromatic orange palette to create a cozy and autumn-inspired look. The design draws inspiration from vintage textures, natural tones, and nostalgic printed materials. Its layered background and organic shapes give it a tactile, handmade feeling that reflects creativity and confidence in styling. The orange hues symbolize warmth, enthusiasm, and self-expression — matching the theme of planning your look with confidence.
